PINKY GOYAL

Data Analyst | SQL Server, Power BI & Business Intelligence
+91-9580004508 | pinkygkp525@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Business-focused Data Analyst with 1.5+ years of experience owning the production SQL Server database behind simplisyt.com, a live multi-module survey and panel platform. Strong in T-SQL, query performance tuning, data modeling, and BI dashboarding with Power BI and SSRS, converting raw operational data into accurate KPIs and self-service reports for business stakeholders. Experienced in automating data cleaning and reporting workflows with Python and in migrating legacy reports and databases.

CORE SKILLS

Database & SQL: SQL Server, T-SQL, Stored Procedures, Views, Functions, Triggers, CTEs, Window Functions, Indexing, Execution Plan Analysis, Query Optimization, Data Modeling & ER Design, PostgreSQL, MySQL
Reporting & BI: Power BI (DAX, Data Modeling), SSRS (Parameterized Reports), Microsoft Excel (Pivot Tables, VLOOKUP, Dashboards), KPI Dashboards, Data Visualization & Storytelling, Requirement Gathering, Stakeholder Reporting
Data Analysis & Engineering: EDA, Data Cleaning & Validation, ETL / Data Pipelines, Data Quality, Statistical & Trend Analysis, Report Automation, Database Migration
Programming & Tools: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, C, HTML/CSS/JavaScript, Git/GitHub, SSMS, Jupyter Notebook, VS Code

WORK EXPERIENCE

Data Analyst | *TeamArcs Technologies Pvt. Ltd.* **March 2025 – Present**

- Own the production SQL Server database for simplisyt.com (Project Management, Community Surveys, Ideas, Polls, Panel Applications), ensuring data integrity and reliable reporting for a live platform.
- Translate business requirements into optimized T-SQL stored procedures, views, and functions powering KPI reports on survey response status, pre-screening, project performance, and client/supplier revenue.
- Improve query and report performance through indexing, execution-plan analysis, and schema refinement while keeping numbers consistent across interconnected modules.
- Migrated SSRS reports to Power BI, delivering interactive, filter-driven dashboards that enable self-service tracking of survey, poll, panel, and revenue KPIs in near real time.
- Automate data cleaning, validation, and transformation with Python (Pandas, NumPy) ETL pipelines, replacing repetitive manual reporting work and improving data quality.
- Building a Python-based migration agent to automate SQL Server to PostgreSQL schema conversion.

Data Analyst Intern *Bargo Software Pvt. Ltd.* **June 2024 – August 2024**

- Analyzed large datasets using Python, SQL, and statistical techniques to uncover business trends and support data-driven decisions.
- Built data cleaning, preprocessing, and transformation pipelines that improved data accuracy for downstream reporting and analysis.

KEY PROJECTS

Database Architecture & BI Reporting: simplisyt.com

- Designed and maintained a multi-module SQL Server schema covering surveys, polls, ideas, project management, and panel applications.
- Centralized business logic into reusable stored procedures and views, simplifying reporting across panel workflows.
- Delivered SSRS and Power BI dashboards that support operational and revenue decision-making for business stakeholders.

AI Enhanced Career Guidance System

- Built a Decision Tree based career recommendation application backed by a data-driven assessment module evaluating skills, interests, and aptitude.

Forecasting and Scheduling of Railway Rakes

- Built a predictive forecasting model on historical coal supply and transportation data to optimize rake scheduling and reduce demurrage costs.

CERTIFICATIONS

- Data Analysis with Python – IBM SkillsBuild | May 2026 | Link
- Machine Learning with Python – IBM SkillsBuild | May 2026 | Link
- Data Analytics & Machine Learning – WsCubeTech
- Data Science Certification – PW Skills | Data Science Workshop – ShapeMySkill

EDUCATION

Qualification	Institution	Year	Score
Bachelor of Technology, Computer Science & Engineering	Dr. APJ Abdul Kalam Technical University	2021–2025	81.51%
Class XII (CBSE)	St. Xavier's Sr. Sec. School	2020	91.40%
Class X (CBSE)	Netajee Defence Academy	2018	89.20%

ACHIEVEMENTS

- Smart India Hackathon Finalist – 2023 & 2024 (National Level – Ministry of Education Innovation Cell & AICTE)
- Winner – College Paper Presentation Competition
- Academic Excellence Award – Class Topper for 3 consecutive years
