PINKY GOYAL

Data Scientist | Machine Learning, Python & SQL
+91-9580004508 | pinkygkp525@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Data Scientist and ML practitioner with 1.5+ years of hands-on experience across the data lifecycle: SQL-based data extraction, cleaning, feature engineering, model building, and BI reporting on a live production platform (simplisyt.com). Proficient in Python, Scikit-learn, OpenCV, and deep learning (CNN), with machine learning and computer vision projects from problem framing to evaluation. Focused on turning raw data into predictive, business-ready insights.

CORE SKILLS

Machine Learning: Scikit-learn, Supervised & Unsupervised Learning, Classification, Decision Trees, SVM, CNN / Deep Learning, Predictive Analytics & Forecasting, Model Evaluation (Accuracy, Precision, Recall, F1)
Data Science: EDA, Statistical Analysis, Feature Engineering, Data Cleaning & Preprocessing, ETL / Data Pipelines, Data Visualization, Business Problem Framing
Computer Vision: OpenCV, Image Preprocessing, Feature Extraction, Gesture and Image Recognition
SQL & BI: SQL Server, T-SQL, PostgreSQL, MySQL, Stored Procedures, CTEs, Window Functions, Query Optimization, Power BI, SSRS, Excel
Programming & Tools: Python (Pandas, NumPy, Matplotlib, Seaborn, OpenCV), SQL, C, HTML/CSS/JavaScript, Git/GitHub, Jupyter Notebook, VS Code

WORK EXPERIENCE

Data Analyst (Data Science & ML) | *TeamArcs Technologies Pvt. Ltd.* **March 2025 – Present**

- Developing a CNN-based CAPTCHA recognition model end to end (OpenCV preprocessing, training, evaluation) to automate manual verification steps in platform workflows.
- Build Python pipelines (Pandas, NumPy) for data cleaning, feature engineering, and predictive analytics on survey and community data to support business decisions.
- Own the production SQL Server database for surveys, polls, panels, and projects; write optimized T-SQL procedures and views that serve as the reliable data layer for analytics and modeling.
- Deliver SSRS and Power BI dashboards (including SSRS to Power BI migration) that communicate survey, panel, and revenue insights to non-technical stakeholders.
- Building a Python migration agent to automate SQL Server to PostgreSQL schema conversion.

Data Analyst Intern *Bargo Software Pvt. Ltd.* **June 2024 – August 2024**

- Analyzed large datasets using Python, SQL, and statistical techniques to identify business trends and support strategic decisions.
- Built data cleaning, preprocessing, and transformation pipelines to ensure high data accuracy for reporting and analysis.

KEY PROJECTS

CAPTCHA Image Recognition (CNN + OpenCV) | Present

- Developing a captcha recognition system using computer vision and deep learning (CNN), with image preprocessing and feature extraction; iterating on model design to improve accuracy.

AI Enhanced Career Guidance System | Sep 2024 – Apr 2025

- Built a Decision Tree based recommendation system with a user assessment module (skills, interests, aptitude) to suggest optimal career paths.
- Delivered a responsive web app with HTML, CSS, JavaScript frontend and Python backend for real-time recommendations.

Forecasting and Scheduling of Railway Rakes | Nov – Dec 2023

- Built a predictive forecasting model on historical coal supply and transportation data to optimize rake scheduling and reduce demurrage costs.

Sign Language Detection System | Aug – Oct 2023

- Developed a real-time gesture recognition system using Support Vector Machine and OpenCV, applying image processing for accurate detection from live video feeds.

CERTIFICATIONS

- Data Analysis with Python – IBM SkillsBuild | May 2026 | Link
- Machine Learning with Python – IBM SkillsBuild | May 2026 | Link
- Data Analytics & Machine Learning – WsCubeTech
- Data Science Certification – PW Skills | Data Science Workshop – ShapeMySkill

EDUCATION

Qualification	Institution	Year	Score
Bachelor of Technology, Computer Science & Engineering	Dr. APJ Abdul Kalam Technical University	2021–2025	81.51%
Class XII (CBSE)	St. Xavier's Sr. Sec. School	2020	91.40%
Class X (CBSE)	Netajee Defence Academy	2018	89.20%

ACHIEVEMENTS

- Smart India Hackathon Finalist – 2023 & 2024 (National Level – Ministry of Education Innovation Cell & AICTE)
- Winner – College Paper Presentation Competition
- Academic Excellence Award – Class Topper for 3 consecutive years
